TOTO

COLLECTIONS 2014-2015

Established in 1917,
TOTO was Japan's
first sanitary ware
manufacturer. Since
then it has brought
the world many revo-
lutionary technologies.

TOTO continues to
pioneer this spirit
while keeping in mind
one main goal:

IMPROVING PEOPLE'S LIVES

TOTO HISTORY

GREEN INITIATIVES

TECHNOLOGIES

FACTS & FIGURES

1917

The company is established by Kazuchika Okura under the name, TOYO TOKI CO. LTD. which is later renamed TOTO.

1923

The Great Kanto Earthquake strikes devastating Tokyo. A sewage system is built during the reconstruction, leading to a rapid growth in demand for sanitary ware.

1946

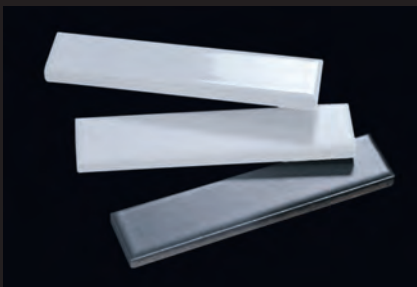

After World War II, TOTO begins manufacturing metal fittings and faucets in addition to ceramics.

1993

The NEOREST toilet is launched incorporating the WASHLET with a comprehensive range of TOTO's innovations. It brings with it the fullest realization yet of the principle of Clean Technology.

1998

TOTO launches HYDROTECT, a patented photocatalytic technology. The surface of the material self-cleans and breaks down pollutants in the air.

2008

TOTO Asia Oceania Pte. Ltd. is established as the regional headquarters of the Middle East, South Asia, South East Asia, and Oceania.

1977

TOTO's first overseas factory opens, named P.T. Surya TOTO Indonesia.

1980

TOTO launches the WASHLET, providing consumers with a whole new level of cleanliness and comfort.

1990

TOTO begins trading in the USA, having already extended into Indonesia, Korea, Thailand, Taiwan, Hong Kong and in 1994, China is also added to the growing list.

2009

TOTO launches in Europe with a grand opening at the ISH Exhibition in Frankfurt, Germany.

2011

Shipment of TOTO Washlets exceed 30,000,000 pieces world wide.

2013

TOTO Asia Oceania launches its first Technical Center in Singapore. It serves to introduce TOTO's latest products and technologies to customers.

TOTO HISTORY

GREEN INITIATIVES

TECHNOLOGIES

FACTS & FIGURES

TOTO technologies provide maximum comfort and minimum consumption

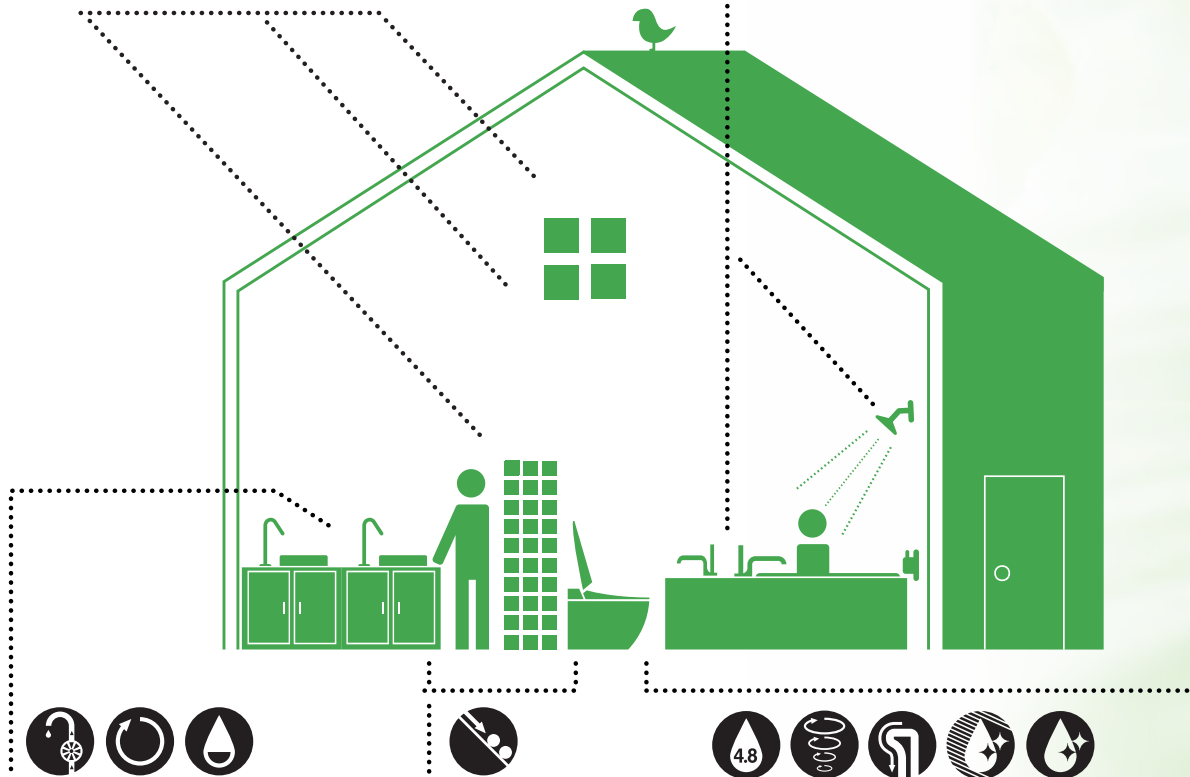

WALLS . WINDOWS . TILES

HYDROTECT surfaces clean themselves and the surrounding air. Indoor surfaces are also antibacterial.

SHOWERS . FAUCETS

AERIAL SHOWER is a full stream of air-infused water droplets. ECOCAP produces an aerated stream for faucets.

AUTOMATIC FAUCETS

Auto-functions are not only convenient and easy to use, they also save water and electricity.

CERAMIC SURFACES

CeFiONtect glaze creates ultra-smooth surfaces that prevent dirt and bacteria from accumulating. No harsh cleaning agents are necessary.

TOILETS . WASHLET

- 3 or 4.8L WATER-SAVING flush.
- Powerful triple-jet TORNADO FLUSH cleans the whole bowl.
- RIMLESS DESIGN makes cleaning easier.
- Washlets are equipped with ACTILIGHT and EWATER+ antibacterial cleaning technologies.

TOTO GREEN CHALLENGE

The environment is changing at a rate beyond our expectations. It is more necessary than ever to conserve resources and minimise CO² emissions. Plumbing equipment, alongside household electrical appliances account for the majority of CO² emitted from the home. As a leading manufacturer of plumbing-related products, it is our responsibility to do our part in keeping the Earth safe. TOTO commenced the TOTO GREEN CHALLENGE to significantly accelerate environmental activities. Product-related initiatives include a focus on reducing CO² emissions, saving water and minimising the need for chemical cleaning agents.

TOTO HISTORY

GREEN CHALLENGE

TECHNOLOGIES

FACTS & FIGURES

ACTILIGHT

Zirconium coating combined with UV light for an antibacterial effect that breaks down waste

WASHLET

An individually adjustable wand system with self-cleaning function

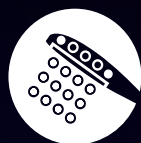

EWATER+

Electrolysed antibacterial water that breaks down waste

TORNADO FLUSH

Revolutionary triple-jet flushing system

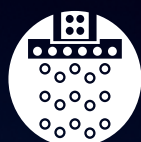

AERIAL SHOWER

Aerated water for the shower

RIMLESS DESIGN

Seamless easy-clean bowl design

AERIAL PULSE

Aerated water with a pulsating function

CEFIONTECT

Special hygienic glaze for a smooth ceramic surface

ECOCAP

Fuller aerated water stream

HYDROTECT

HYDROTECT

Intelligent coating for indoor and outdoor surfaces using photocatalyst technology

WATER-SAVING

Technologies that save water

SELF POWER

Sensor-activated faucet generates its own electricity

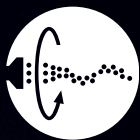

AUTO FUNCTIONS

Sensor-controlled technologies activated by human movement

HYDROHANDS

Quiet warm water massage function for bath tubs

GYROSTREAM

Shower jets with rotating and pulsating functions

SMA

Maintains a constant water temperature despite fluctuating water supply temperatures and pressure levels

LUMINIST

Translucent epoxy resin material

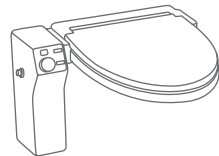

WATER PILLAR

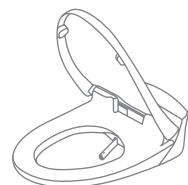

Light yet voluminous stream of water

10 GOOD REASONS TO CHOOSE TOTO

TOTO...

- ① IS THE WORLD'S MARKET LEADER IN SANITARY WARE
- ② BRINGS THE JAPANESE SPIRIT OF INNOVATION TO THE BATHROOM
- ③ PRODUCTS ARE GROUNDED IN NEARLY 100 YEARS OF RESEARCH AND DEVELOPMENT
- ④ INVENTED THE WASHLET
- ⑤ UNITES THE ULTIMATE IN HYGIENE WITH THE IDEAL COMBINATION OF DESIGN AND TECHNOLOGY
- ⑥ SHOWERS ARE BOTH WATER SAVING AND RELAXING AT THE SAME TIME
- ⑦ PRODUCTS CONSERVE RESOURCES AND CUT COSTS
- ⑧ PRODUCTS ARE DESIGNED TO MEET THE NEEDS OF ALL INDIVIDUALS, REGARDLESS OF AGE OR ABILITY
- ⑨ PRODUCES WATER-SAVING PRODUCTS THAT MAINTAIN HIGH LEVELS OF PERFORMANCE
- ⑩ INNOVATIONS ARE CHANGING THE WAY PEOPLE THINK ABOUT AND USE BATHROOMS

NEOREST

Turn your home into a haven of well-being. The NEOREST collection combines the latest technologies with TOTO's signature clean design. We know that creating the bathroom of the future is about technology that you can feel and not just see.

NEOREST XH

TOTO is dedicated to pushing the limits of innovation to make technological break-throughs that improve the quality of life. The NEOREST with Actilight is a powerful cleaning system that brings new levels of health and hygiene to the washroom. Experience the pleasure of using a toilet that always looks and feels brand new.

NEOREST LE

The new NEOREST with Actilight and ewater+ technologies is setting new standards in hygiene. The toilet bowl features a special zirconium oxide coating. It works with the ultraviolet light inside the seat cover to trigger a photocatalytic process that breaks down organic substances. The result is a consistently clean toilet.

DECADES OF RESEARCH
WENT INTO MAKING
THE GREATEST ADVANCEMENT
IN WASHROOM TECHNOLOGY

ACTILIGHT

The NEOREST with Actilight represents the zenith of clean technology made to improve life. It is the only toilet with the technology to stay clean on its own, ridding itself of both visible and invisible waste through a photocatalytic process. Indulge in the comfort and cleanliness of NEOREST with Actilight.

MECHANISM

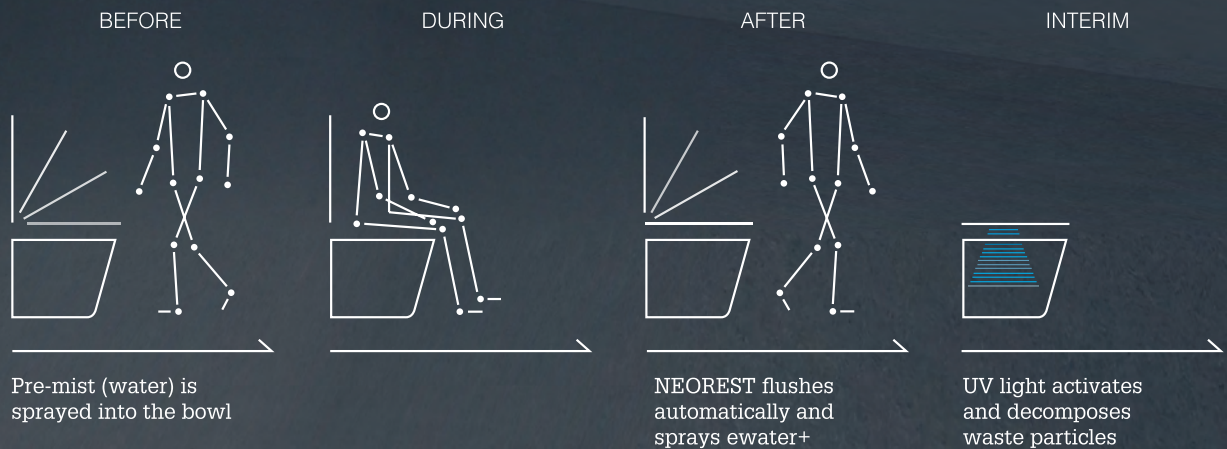

Actilight includes two key features: an ultraviolet light inside the lid and a scientifically formulated glaze that's fired onto the bowl. These two technologies work together with oxygen and water in the air to generate the photocatalytic process that decomposes bacteria and waste.

The UV light is located inside the lid. The zirconium oxide in the glaze provides superior durability while giving the bowl a shimmering quality.

THE PURIFICATION CYCLE

When the Neorest is not in use, the ultraviolet light automatically turns on to ensure a continuously clean toilet bowl.

EWATER+

ewater+ is an antibacterial liquid that prevents waste particles from accumulating and staining the toilet bowl. It is sprayed into the toilet after flushing and eliminates 99.9% of bacteria. It also sterilises the bidet nozzle after every use.

THE PURIFICATION CYCLE

BEFORE

Pre-mist (water) is sprayed into the bowl

DURING

Nozzle is cleaned with water

AFTER

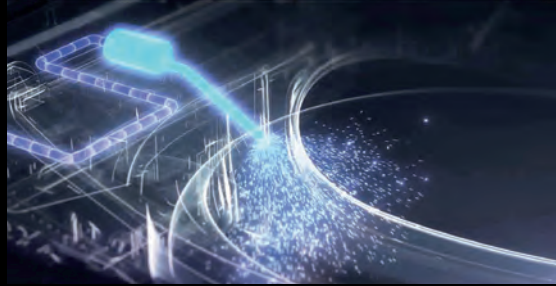

Nozzle and bowl is cleaned with ewater+

INTERIM

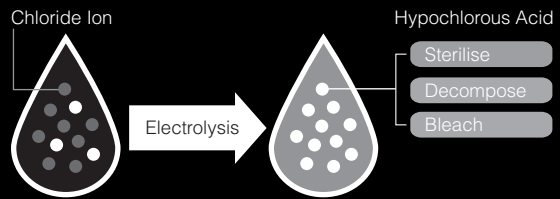

After 8 hours of non-use, ewater+ is automatically sprayed

MECHANISM

Tap water is electrolysed as it travels through the toilet.

When naturally occurring chloride ions in tap water are electrolysed, they turn into hypochlorous acid, the active ingredient of ewater+. Hypochlorous acid is capable of instantly sterilising a dirty surface.

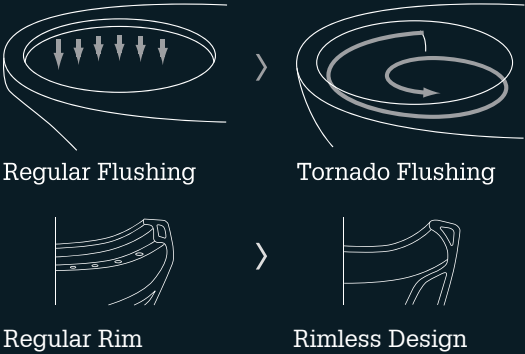

ewater+ turns back into regular water after two hours, making it an Earth-friendly alternative to harsh household cleaning agents.

INTEGRATED TECHNOLOGIES

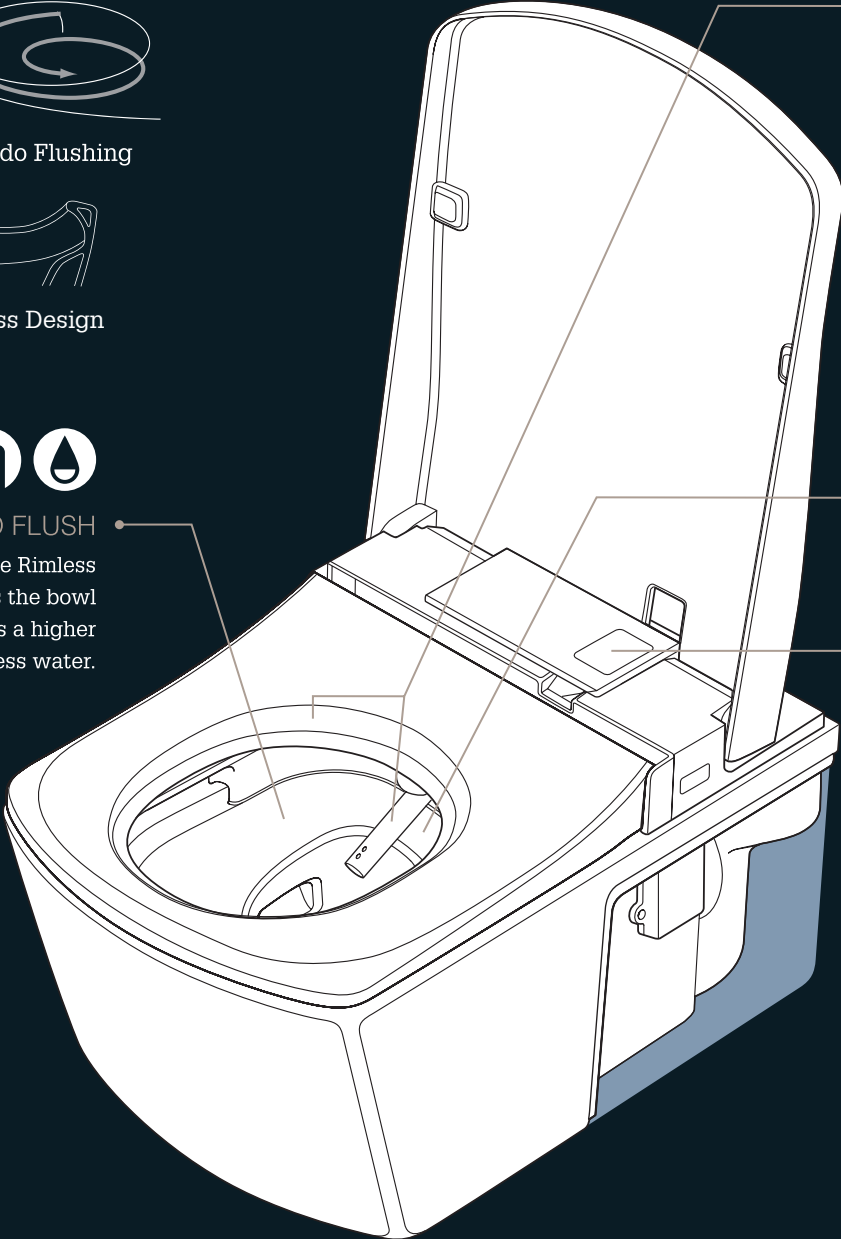

This is no ordinary toilet

The Neorest integrates all of TOTO's cutting edge technologies culminating in a device that caters to all of your needs and more.

TORNADO FLUSH

The Tornado Flush together with the Rimless Design comprehensively covers the bowl from corner to corner and achieves a higher level of cleanliness with less water.

WASHLET

The Washlet's functions are controlled by a remote control. The flow of the warm, aerated water can be adjusted with ease for rear and front cleansing. After use, the wand disappears into its casement for self cleaning.

CEFIONTECT

This special glaze makes the ceramic surface ultra-smooth even at microscopic levels. The slippery surface prevents waste from sticking.

Ordinary Ceramic Surface

Ceramic Surface with CeFiONtect

AUTO FUNCTIONS

The lid automatically opens as you approach the toilet. After use, the triple jet Tornado Flush is activated forcing waste off the surface as the lid gently closes. A hands-free device is both more convenient and more hygienic.

LUMINIST

In Luminist, TOTO has created an exceptional epoxy resin material that combines a soft silky texture and a translucent appearance with extreme durability and heat resistance. LUMINIST washbasins and bathtubs are extremely long-lasting. LUMINIST can also be used in combination with LEDs, enabling you to use light as a design element in your bathroom.

HYDROHANDS

Hydrohands is a technological development that turns the bathtub into an oasis of health and well-being, allowing you to enjoy the benefits of hydro massage. The warm water hydrotherapy system channels the natural flow of the water, providing a back massage that imitates the feel of hands.

GYROSTREAM

The Gyrostream technology in this shower has taken showering to a whole new level. The water sprays out from several sources including the headshower, the hand-held unit and the six nozzle body shower, which uses Gyrostream technology to create a vortex of water that rinses and warms the entire body. With such an extensive range of shower programs, you can pamper yourself whenever you choose.

WASHLET

The Washlet is TOTO's signature product. It first debuted in Japan in 1980 and revolutionised bathrooms across the country.

The Washlet offers an array of services that cleans and refreshes for your own enjoyment. Experience a new way of using water in the bathroom.

EWATER+

ewater+ is an antibacterial liquid that minimises waste particles that stain the toilet bowl. It is sprayed into the toilet and onto the nozzle, sterilising the entire surface. Combined with other TOTO technologies such as rimless design and CeFiONtect, the WASHLET stays refreshingly clean for the long term.

ewater+

When naturally occurring chloride ions in tap water are electrolysed, they turn into hypochlorous acid, the active ingredient of ewater+. Hypochlorous acid sterilises a dirty surface in an instant.

ewater+ turns back into regular water after two hours, making it an Earth-friendly alternative to harsh household chemicals.

WASHLET FEATURES

Sanitising Function

Before use, the toilet sprays tap water to wet the surface of the bowl. After use, ewater+ is sprayed.

Automated Deodoriser

After use, odours are automatically vacuumed into the toilet with twice the power of conventional deodorisers.

Nozzle Cleaning

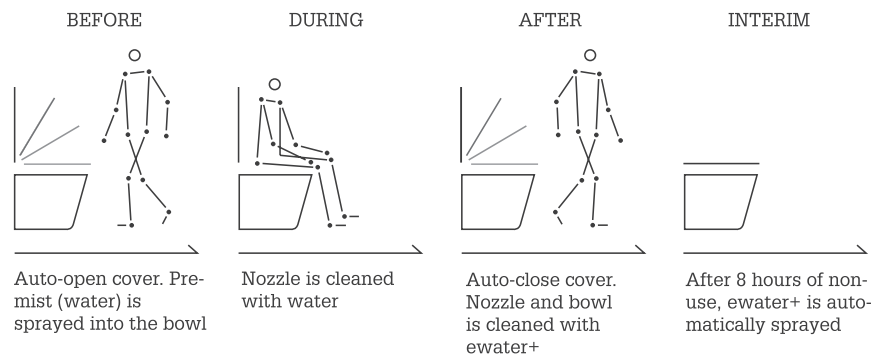

In addition to being rinsed with tap water before and after every use, the nozzle is sterilised with ewater+.

ECOWASHER

The TOTO Ecowasher is extremely convenient because it does not require any electricity. The water from the nozzle is controlled solely by water pressure. Without needing an electrical outlet, it is easy to install and remove for cleaning purposes. It also is just as enjoyable to use as the TOTO Washlet.

TOILET

TOTO represents the next generation of washroom products. We are the driving force behind innovations in technology designed to bring about the heighest levels of hygiene, sustainability and well-being.

Combined with TOTO's distinctive minimalist aesthetic, TOTO toilets enhance every bathroom setting.

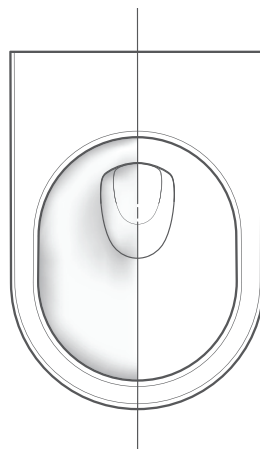

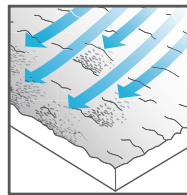

CEFIONTECT

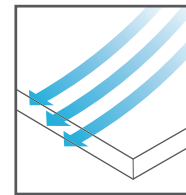

CeFiONtect is a special glaze applied to TOTO ceramic products that makes the surface ultra-smooth.

Conventional ceramics have ridges that are invisible to the naked eye but look like mountain ranges through a microscope. Bacteria easily collects inside these crevices. CeFiONtect is an innovative technology that creates perfectly smooth surfaces even at microscopic levels so that waste particles easily slide off. It is applied before firing making it extremely resilient and long-lasting.

Conventional Toilet

CeFiONtect Toilet

TORNADO FLUSH

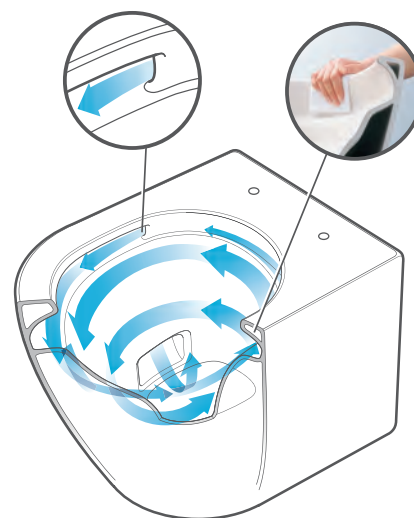

Tornado Flush is an integral feature of TOTO toilets. It re-imagines the way a toilet flushes.

Instead of a conventional flush that pours down from the rim, Tornado Flush projects three high-pressure water jets that generate a tornado-like vortex of water, forcing waste off the bowl's surface. It is both quiet and water-efficient.

RIMLESS DESIGN

The Rimless Design eliminates areas where dirt and bacteria easily collect. This ensures that all areas of the bowl are accessible making cleaning easier for you and better for the environment.

LAVATORY

A close-up photograph of a white ceramic lavatory. The focus is on the upper right portion, showing a rounded rectangular handle with a subtle groove. The surface is smooth and glossy, reflecting light. The background is a soft, out-of-focus white, emphasizing the clean, minimalist design of the fixture.

Simple and beautiful in appearance. Comfortable and streamlined design. Earth-friendly materials and efficient performance.

These are the principles that underlie all of our lavatories.

FITTINGS

Feel the soothing effect of water with TOTO faucets and showers. Equipped with sophisticated technologies, these fittings will bring you a transformative cleansing experience.

TOTO

OTOI

TOTO SHOWERS

TOTO is introducing new and improved showers with cutting-edge technologies that offer invigorating experiences while preserving our precious resources.

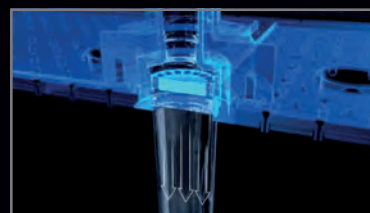

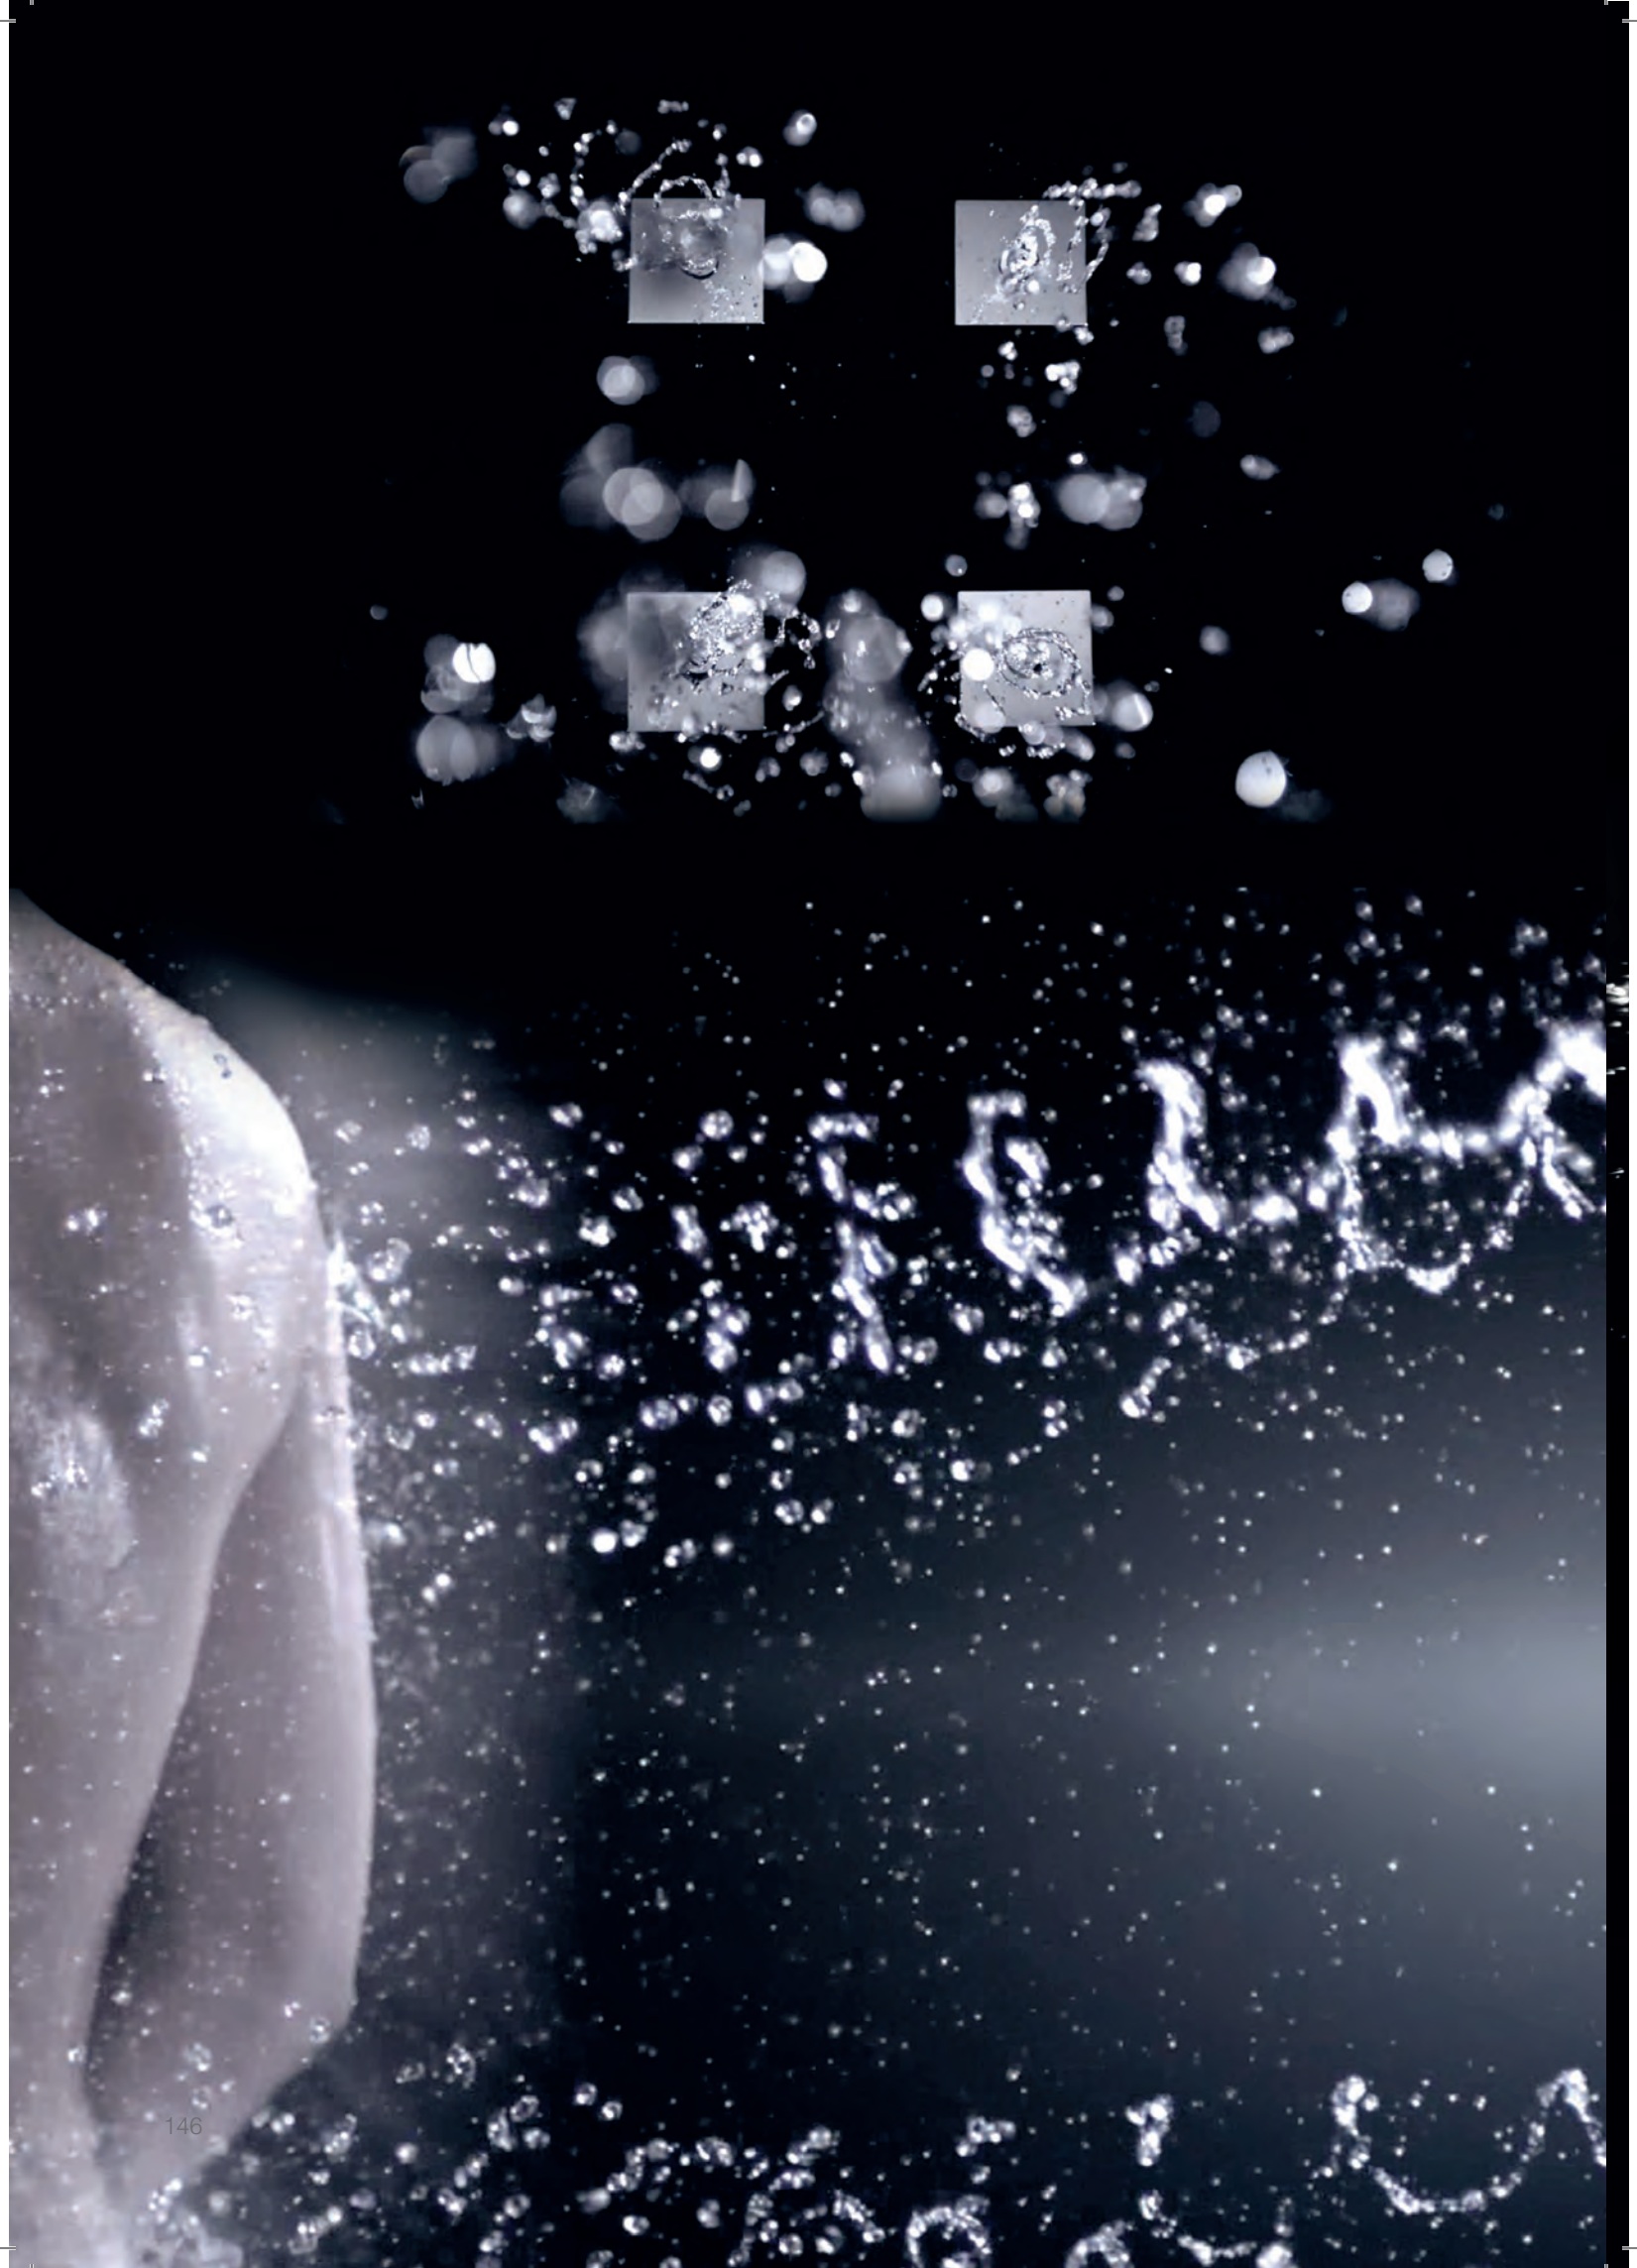

WATER PILLAR

With Water Pillar technology, TOTO controls a single stream of water so that it gently glides over the entire body like a second layer of skin. The density prevents heat from escaping and permeates the whole body with an invigorating warmth.

MECHANISM

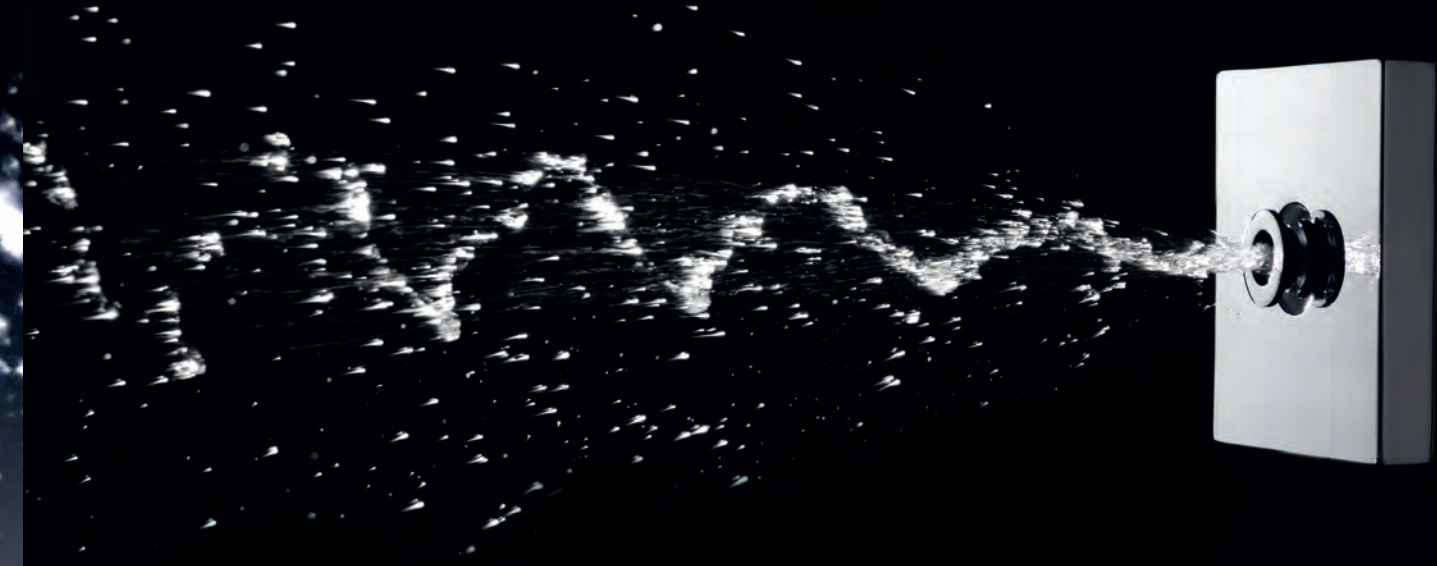

A special structure inside the shower head causes the water to flow evenly, forming a dense, enveloping layer of water.

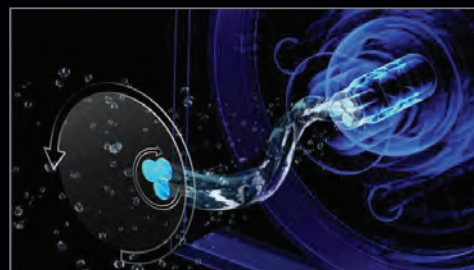

GYROSTREAM

The bathroom is a space where health and well-being take centre stage. Gyrostream offers the same relaxing effect that you'd find in a bathtub. Rotating nozzles deliver a stimulating massage that spreads evenly over a wide area of the body.

MECHANISM

Water sprays out through nozzles that rotate in two different directions resulting in a powerful flow of water. These water vortices provide an invigorating massaging effect.

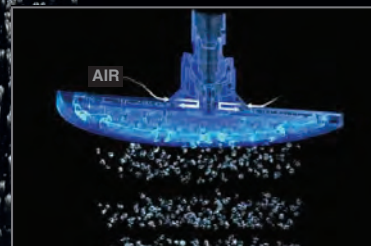

AERIAL PULSE

TOTO fixed shower heads are equipped with Aerial Pulse technology offering a voluminous flow with little water consumption. Air is drawn in through the shower head and added to the water. The shower head pulses the enlarged water droplets as they fall for a relaxing experience.

MECHANISM

The pulsing effect is created by rapidly altering the concentration of air inside the water droplets.

AERIAL SHOWER

Aerial Shower aerates the water to make the shower experience more enjoyable. You feel as though you're standing below a particularly full stream without any increase in the amount of water used.

BATHTUB

Give yourself the time to
indulge in luxury everyday.
Taking a bath is no longer just
about cleansing your body but
also soaking in extreme com-
fort and tranquility.

TOTO's wide-range of bath-
tubs are specially designed to
maximise the little time you
have for yourself. Unwind in a
luxurious sanctuary for relaxa-
tion and meditation.

AIR-JET MASSAGE FUNCTIONS

Air-Jet

The Air-Jet outlets at the bottom of the bathtub eject air. Full body Air-Jet massage creates the holistic relaxation.

Whirlpool

The jet inside the bathtub ejecting water creates a whirlpool effect. The whirlpool effects massage the lower body and legs giving the total comfort.

Air-Jet + Whirlpool

The luxury combination of Air-Jet and Whirlpool maximizes your bathroom experience.

PUBLIC

Public areas are difficult to keep clean and TOTO makes that possible. Special technologies are implemented to sustain long-lasting, hygienic environments.

Not only that, the products and spaces are designed to be easily used by people of all ages and abilities.

AUTO FAUCET SERIES

Micro Sensor

Integrated into the tip of the spout for accurate movement sensing

Power Generator

Water turns the power generator's turbine, creating an electrical current

Solenoid Valve

Activated by electricity from the power generator

Aerated Water

Reduces water consumption by 50%

SMA Thermostat

Maintains constant temperatures despite fluctuating water temperature and pressure levels.

SELF POWER

TOTO automatic faucets no longer need power from an electrical outlet. The energy from the flowing water is used to charge a battery that powers the faucet. The faucets require practically no maintenance.

AUTO FUNCTIONS

Cost Reduction & Energy Saving
Batteries don't need to be replaced which is better for the environment and reduces the need for maintenance.

Hygiene

The sensor-activated system means that users don't need to touch the faucets, reducing the risk of transmitting bacteria.

Smart Sensor

The automatic faucets feature an almost invisible sensor in the spout. It registers every hand movement precisely and is tamper-proof.

WATER SAVING

TOTO's aerated technology adds air to the water enlarging each droplet. This reduces water consumption by half from 4L to 2L per minute without any loss in stream volume.

UNIVERSAL DESIGN

The Universal (UD) concept reflects TOTO's commitment to developing products that are easy to use for everyone.

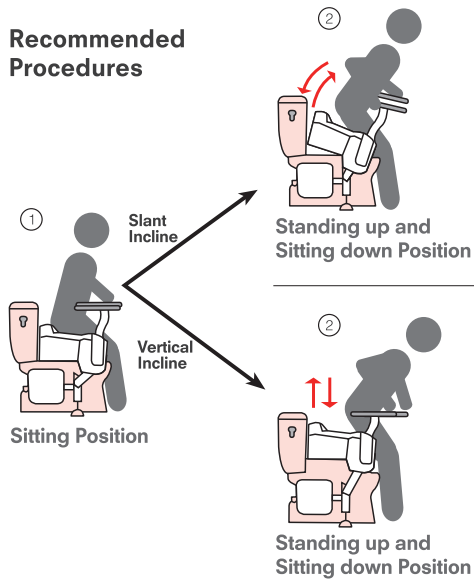

We design products that are safe and easy to use for people irrespective of differences in age, gender, physical condition, language, knowledge or experience.

POWERED ELEVATING TOILET SEAT LIFT

Instructions

Recommended Procedures

Slant Incline

Assist users to bend their legs slightly and able to stand up with slight push forward

- Able to incline with the correct speed and direction for the user while standing or sitting
- The operation angle of the toilet lift is 0° - 15°, able to stop within the range

Vertical Incline

Suitable for users who feel that the height is insufficient and have not enough strength to push forward and unable to bend their legs and want to stand up with a stable movement

- Able to incline vertically and stop within the range of 117mm.

HYDROCERA

Hydrotect is an environmental cleaning technology that harnesses the power of light and water to clean surfaces of dirt and grime. It can be used in numerous applications, from exterior walls and glass to interior walls and floors.

Thanks to its antimicrobial, anti-mold and anti-odour capabilities, Hydrotect also helps keep the air and the environment cleaner and healthier.

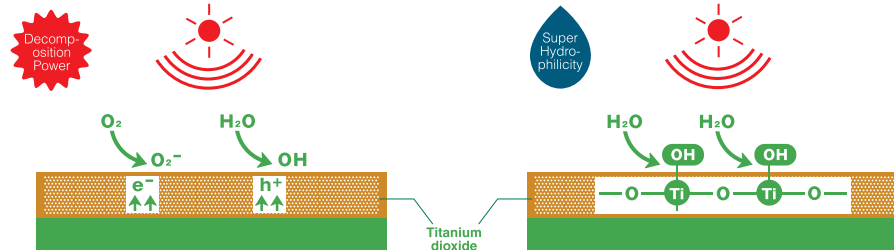

The results? Less time and money spent cleaning, cleaner air and environmentally responsible building practices. In short, a better world.

PROPERTIES OF HYDROTECT

Hydrotec is an environmental purification technology that cleanses our living environment by a photocatalytic reaction that harnesses the power of light and water.

Photocatalytic

Hydrotec produces a number of environmentally-beneficial effects through a process similar to photosynthesis in plants.

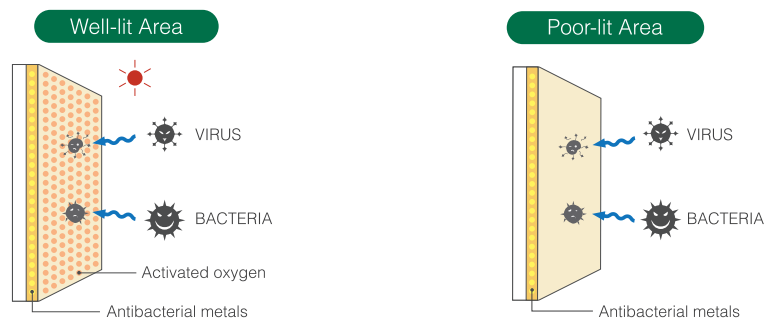

When exposed to light, titanium dioxide produces electrons (e^-) and holes (h^+). These react with oxygen and water (O_2 , H_2O) in the air to produce activated oxygen (O_2^- , OH). This oxygen decomposes organic substances on the surface of products.

When titanium dioxide (TiO_2) is exposed to light, the titanium (Ti) reacts with water (H_2O) in the air, producing a hydrophilic layer that easily washes away any dirt or grime.

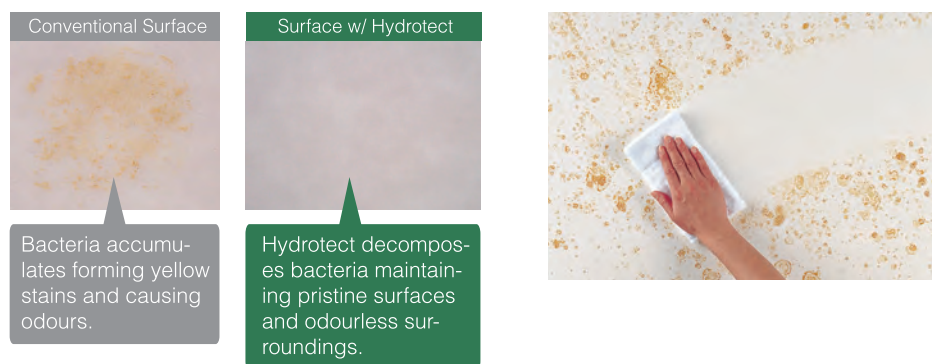

Antibacterial

Antibacterial metals make it possible for surfaces with Hydrotec to decompose bacteria in poor-lit areas as well as under the sun. This improves hygiene on walls and floors in indoor areas such as toilets, bathrooms and kitchens.

Anti-Odour

Through the decomposition of organic substances, surfaces remain free of stains that often emit foul odours.

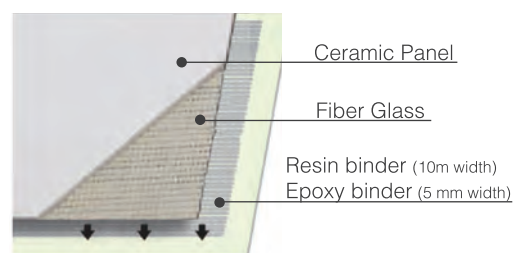

Highly Durable

HYDROCERA is fired under extremely high temperatures of $1200^{\circ}C$ making it exceptionally durable and long-lasting.

*The colors of the actual product may vary from the other color shown here due to limitations imposed by the printing process

PROPERTIES OF HYDROCERA PU

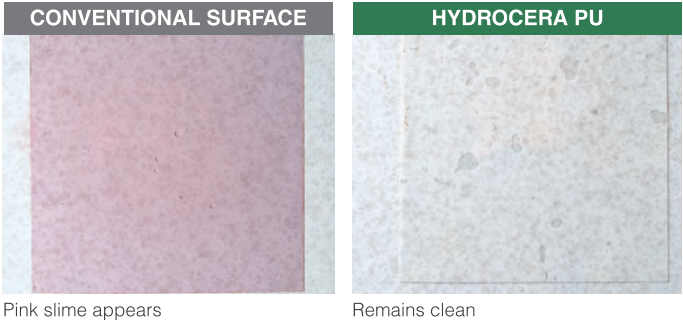

STAIN RESISTANT

Testing Method

- ① Coloured drops are applied onto the surface and left for one hour.
- ② The surface is wiped with a damp cloth.

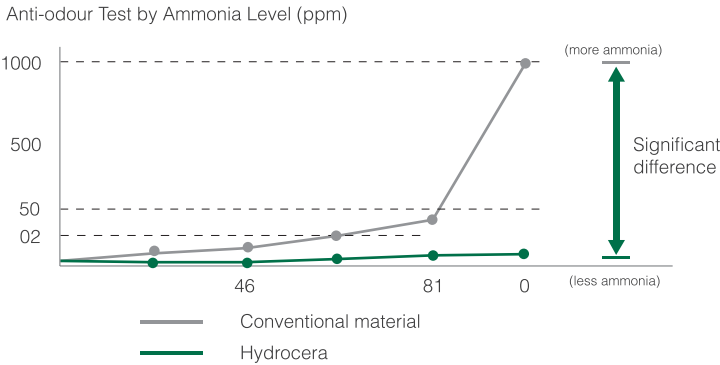

ANTIBACTERIAL

Testing Method

- ① Liquid droplets containing bacteria are applied onto the surface.
- ② The surface is placed in a humid bathroom for a two-week duration.

ANTI-ODOUR

Testing Method

- ① Urine is applied on the surfaces.
- ② The ammonia level is measured after two days.

TOTO GROUP CORPORATE PHILOSOPHY

The TOTO Group strives to create a great company, trusted by people all around the world, and contributing to the betterment of society.

To achieve our philosophy, TOTO will,

- 1. Create an enriched and more comfortable lifestyle and culture build on our plumbing products.**
- 2. Pursue customer satisfaction by exceeding expectations with our products and services.**
- 3. Provide high-quality products and services through ongoing research and development.**
- 4. Protect the global environment by conserving finite natural resources and energy.**
- 5. Create an employee friendly work environment that respects the individuality of each employee.**

WASHLET

The Washlet is TOTO's signature product. It first debuted in Japan in 1980 and revolutionised bathrooms across the country.

The Washlet offers an array of services that cleans and refreshes for your own enjoyment. Experience a new way of using water in the bathroom.

EWATER+

ewater+ is an antibacterial liquid that minimises waste particles that stain the toilet bowl. It is sprayed into the toilet and onto the nozzle, sterilising the entire surface. Combined with other TOTO technologies such as rimless design and CeFiONtect, the WASHLET stays refreshingly clean for the long term.

ewater+

When naturally occurring chloride ions in tap water are electrolysed, they turn into hypochlorous acid, the active ingredient of ewater+. Hypochlorous acid sterilises a dirty surface in an instant.

ewater+ turns back into regular water after two hours, making it an Earth-friendly alternative to harsh household chemicals.

WASHLET FEATURES

Sanitising Function

Before use, the toilet sprays tap water to wet the surface of the bowl. After use, ewater+ is sprayed.

Automated Deodoriser

After use, odours are automatically vacuumed into the toilet with twice the power of conventional deodorisers.

Nozzle Cleaning

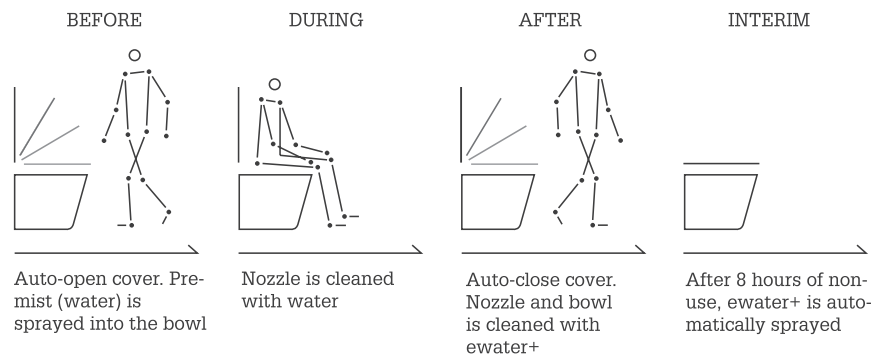

In addition to being rinsed with tap water before and after every use, the nozzle is sterilised with ewater+.

Outer cleaning

Inner cleaning

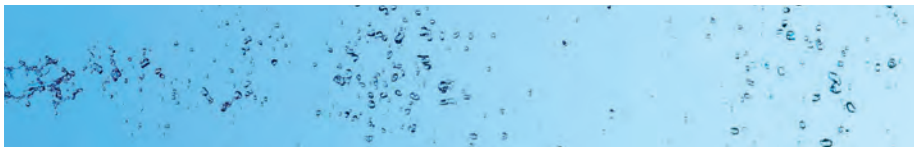

Purification Cycle

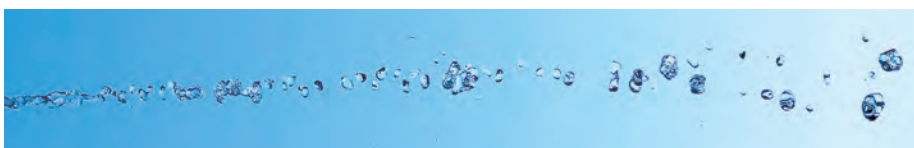

Customised Spray Patterns

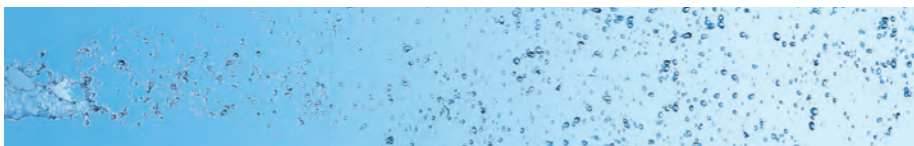

Rear
A powerful flow of water

Rear-soft
A soft and gentle water flow

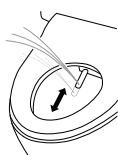

Front

ECOWASHER

The TOTO Ecowasher is extremely convenient because it does not require any electricity. The water from the nozzle is controlled solely by water pressure. Without needing an electrical outlet, it is easy to install and remove for cleaning purposes. It also is just as enjoyable to use as the TOTO Washlet.

TOILET

TOTO represents the next generation of washroom products. We are the driving force behind innovations in technology designed to bring about the heighest levels of hygiene, sustainability and well-being.

Combined with TOTO's distinctive minimalist aesthetic, TOTO toilets enhance every bathroom setting.

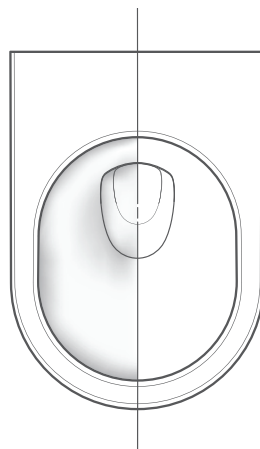

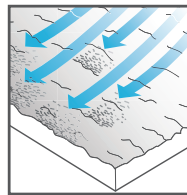

CEFIONTECT

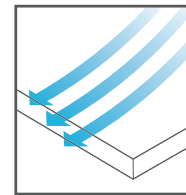

CeFiONtect is a special glaze applied to TOTO ceramic products that makes the surface ultra-smooth.

Conventional ceramics have ridges that are invisible to the naked eye but look like mountain ranges through a microscope. Bacteria easily collects inside these crevices. CeFiONtect is an innovative technology that creates perfectly smooth surfaces even at microscopic levels so that waste particles easily slide off. It is applied before firing making it extremely resilient and long-lasting.

Conventional Toilet

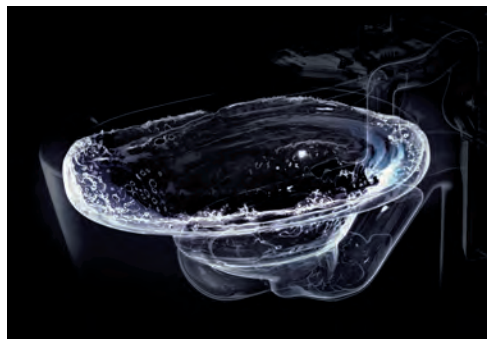

CeFiONtect Toilet

TORNADO FLUSH

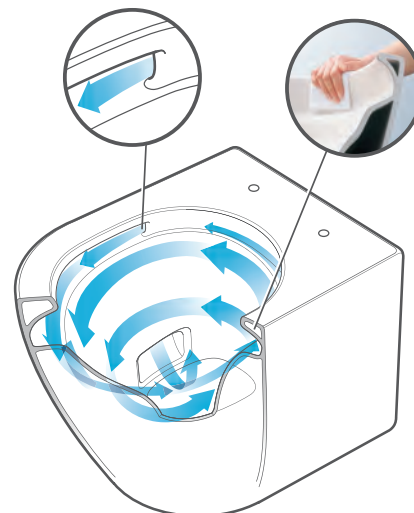

Tornado Flush is an integral feature of TOTO toilets. It re-imagines the way a toilet flushes.

Instead of a conventional flush that pours down from the rim, Tornado Flush projects three high-pressure water jets that generate a tornado-like vortex of water, forcing waste off the bowl's surface. It is both quiet and water-efficient.

RIMLESS DESIGN

The Rimless Design eliminates areas where dirt and bacteria easily collect. This ensures that all areas of the bowl are accessible making cleaning easier for you and better for the environment.

LAVATORY

A close-up photograph of a white ceramic lavatory. The image shows the smooth, curved surface of the basin and a rounded rectangular handle on the right side. The lighting is soft, highlighting the clean lines and minimalist design of the fixture.

Simple and beautiful in appearance. Comfortable and streamlined design. Earth-friendly materials and efficient performance.

These are the principles that underlie all of our lavatories.

FITTINGS

Feel the soothing effect of water with TOTO faucets and showers. Equipped with sophisticated technologies, these fittings will bring you a transformative cleansing experience.

TOTO

OTOI

TOTO SHOWERS

TOTO is introducing new and improved showers with cutting-edge technologies that offer invigorating experiences while preserving our precious resources.

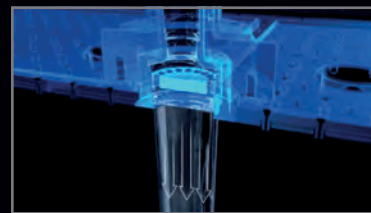

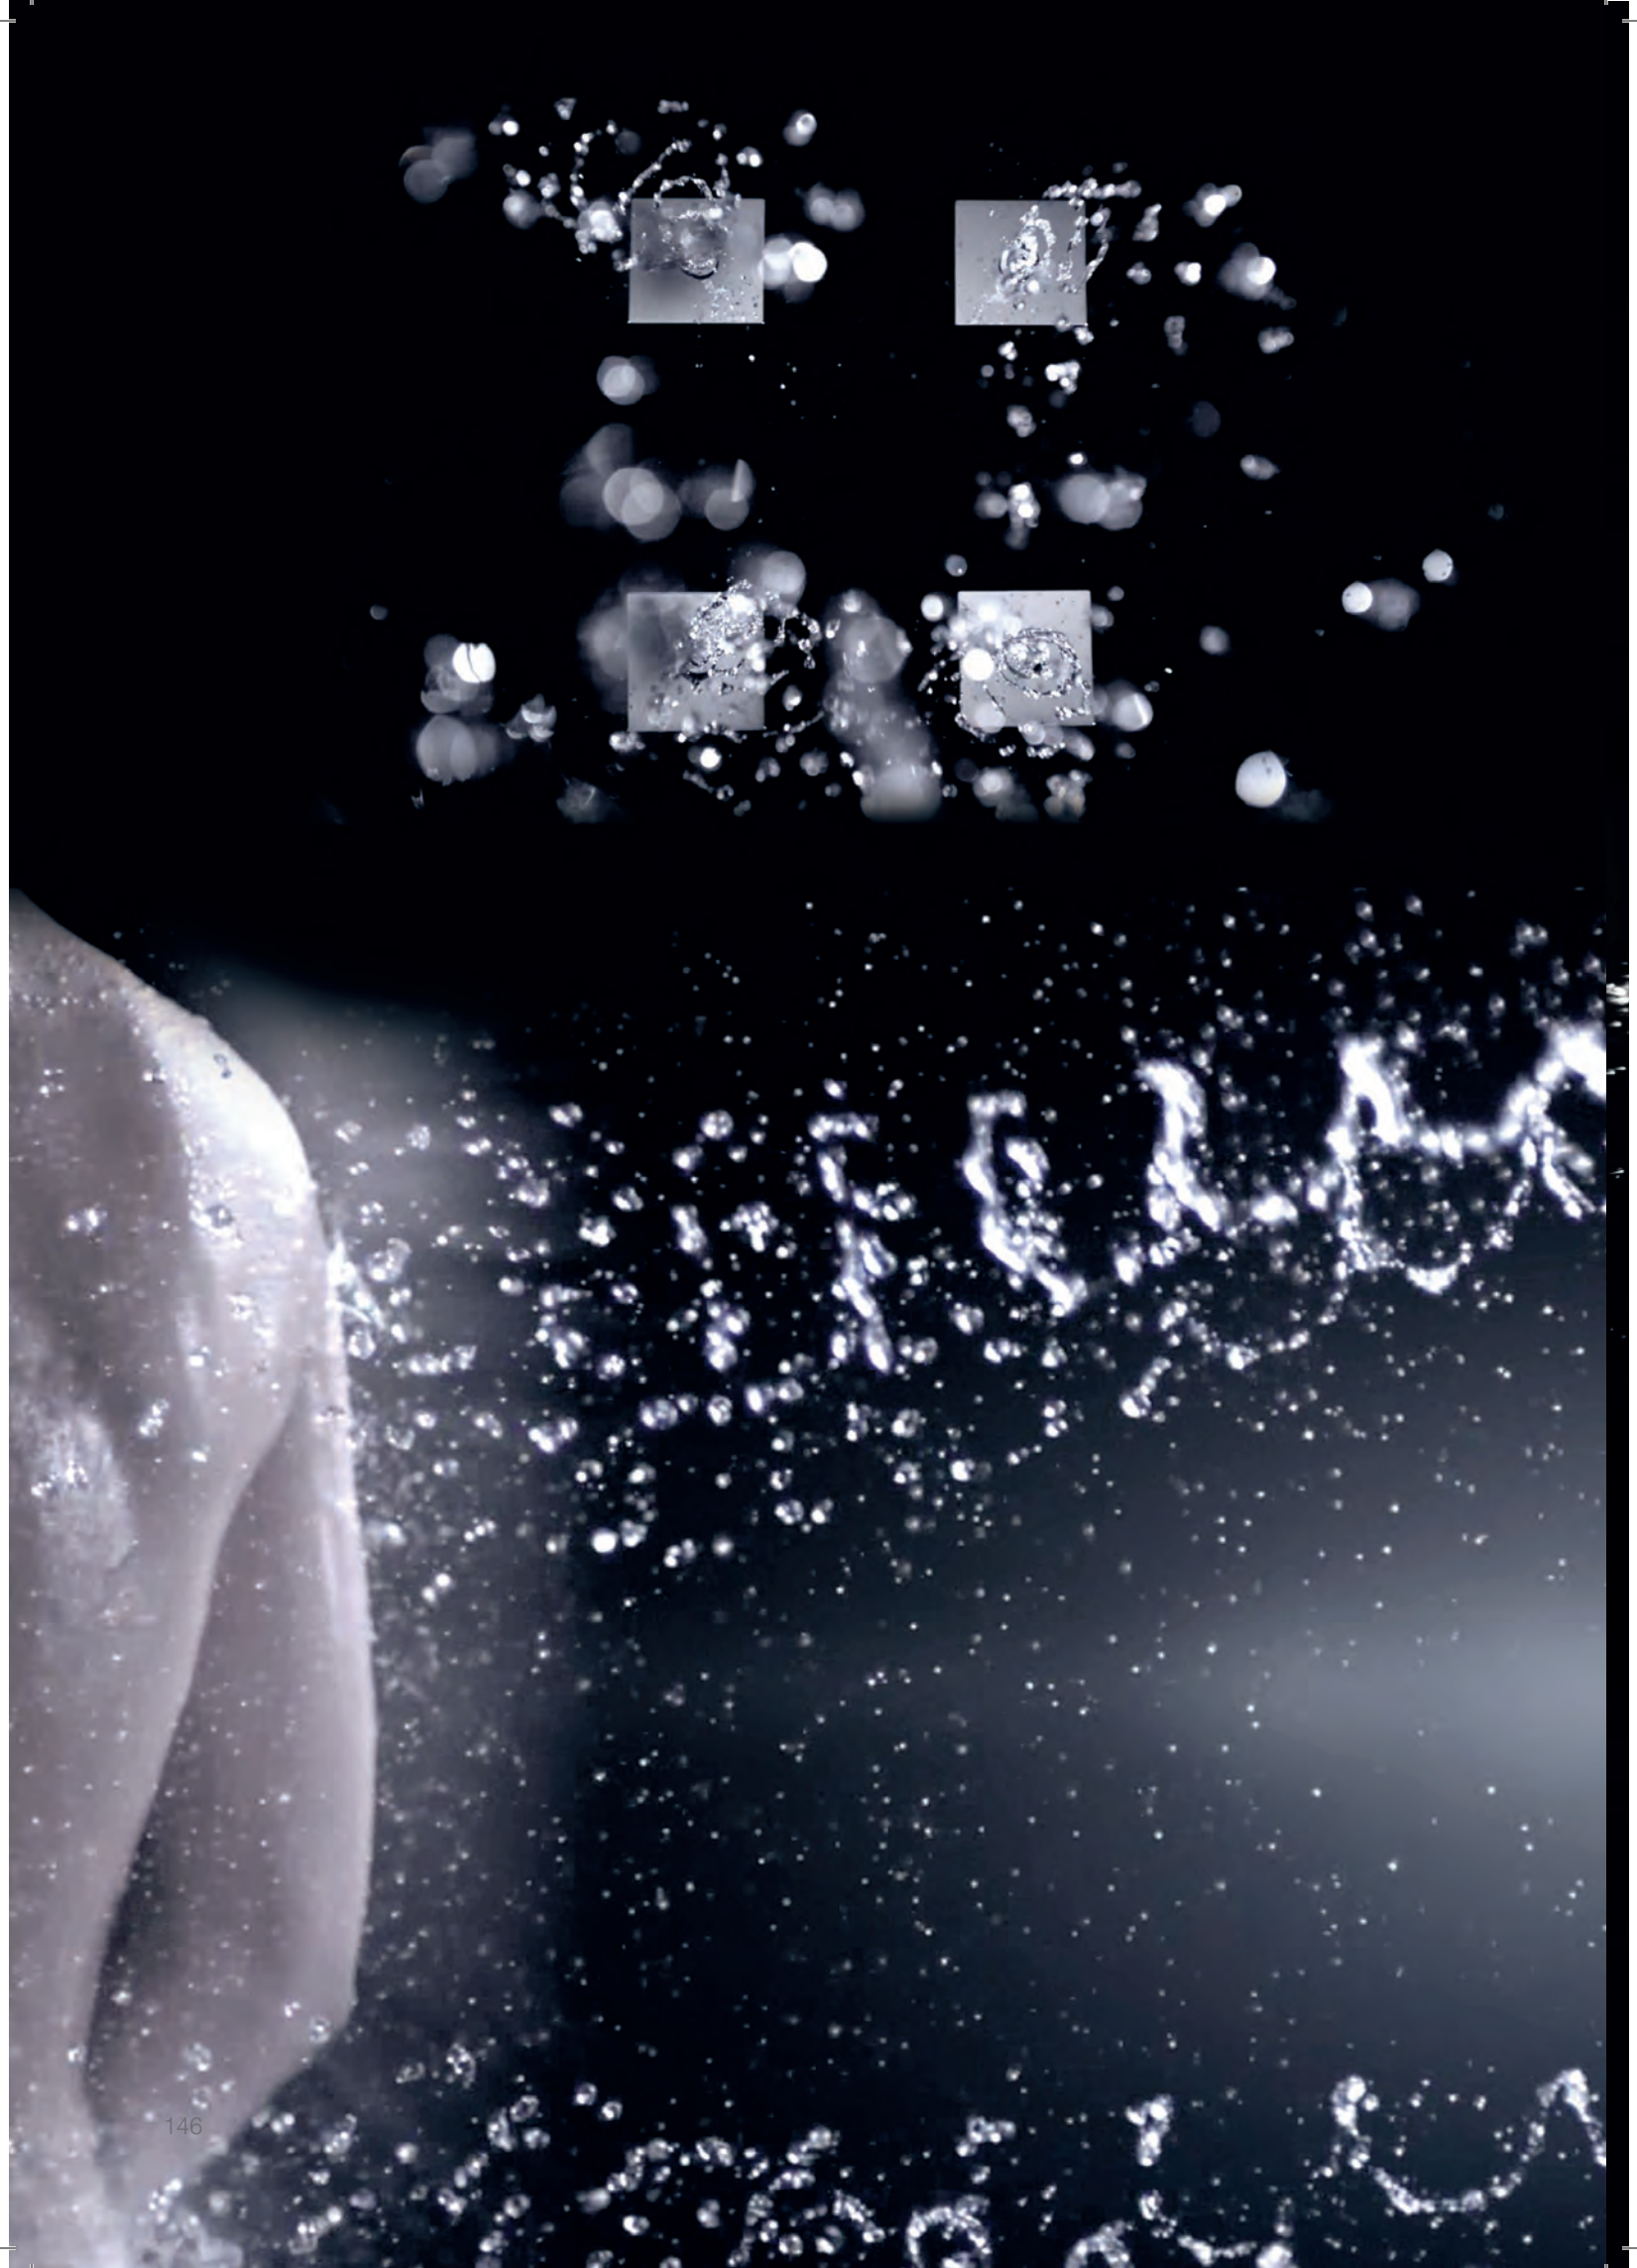

WATER PILLAR

With Water Pillar technology, TOTO controls a single stream of water so that it gently glides over the entire body like a second layer of skin. The density prevents heat from escaping and permeates the whole body with an invigorating warmth.

MECHANISM

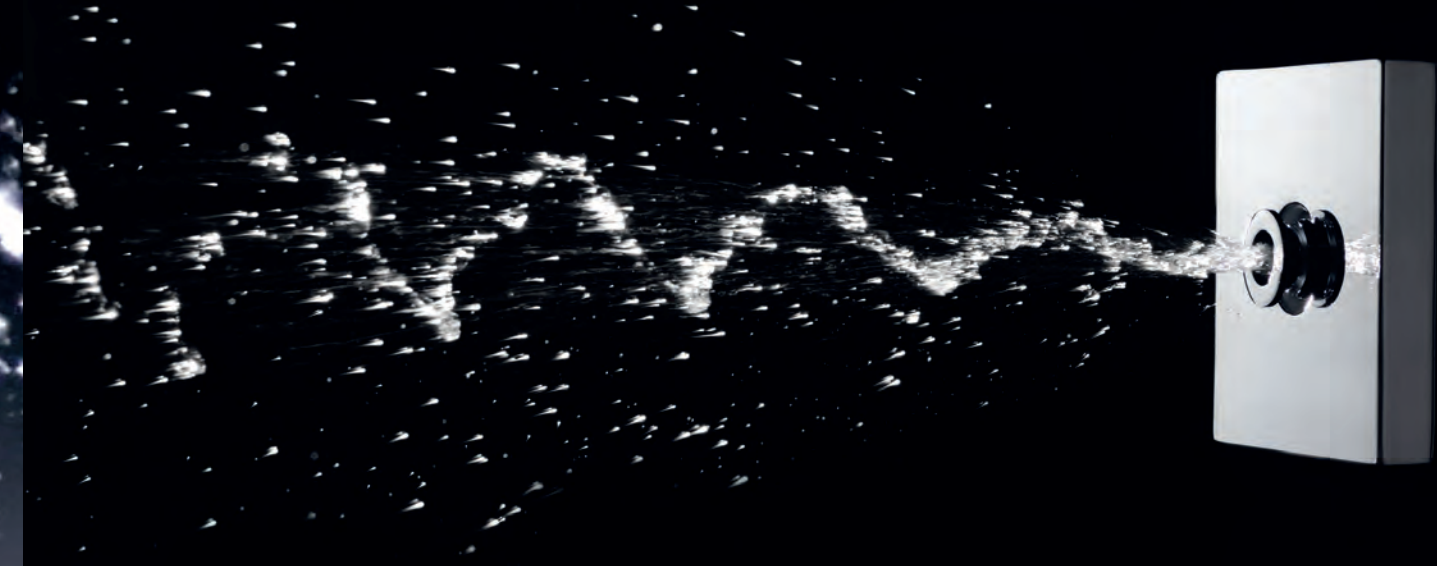

A special structure inside the shower head causes the water to flow evenly, forming a dense, enveloping layer of water.

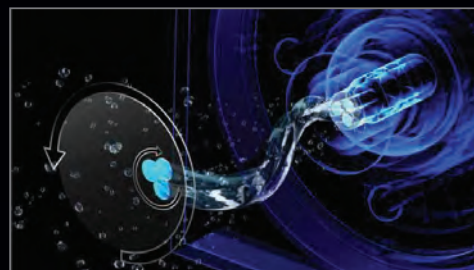

GYROSTREAM

The bathroom is a space where health and well-being take centre stage. Gyrostream offers the same relaxing effect that you'd find in a bathtub. Rotating nozzles deliver a stimulating massage that spreads evenly over a wide area of the body.

MECHANISM
Water sprays out through nozzles that rotate in two different directions resulting in a powerful flow of water. These water vortices provide an invigorating massaging effect.

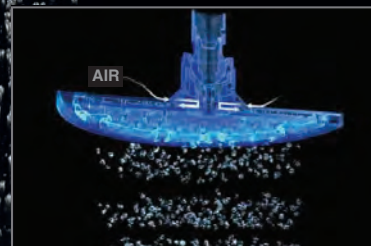

AERIAL PULSE

TOTO fixed shower heads are equipped with Aerial Pulse technology offering a voluminous flow with little water consumption. Air is drawn in through the shower head and added to the water. The shower head pulses the enlarged water droplets as they fall for a relaxing experience.

MECHANISM

The pulsing effect is created by rapidly altering the concentration of air inside the water droplets.

AERIAL SHOWER

Aerial Shower aerates the water to make the shower experience more enjoyable. You feel as though you're standing below a particularly full stream without any increase in the amount of water used.

BATHTUB

Give yourself the time to
indulge in luxury everyday.
Taking a bath is no longer just
about cleansing your body but
also soaking in extreme com-
fort and tranquility.

TOTO's wide-range of bath-
tubs are specially designed to
maximise the little time you
have for yourself. Unwind in a
luxurious sanctuary for relaxa-
tion and meditation.

AIR-JET MASSAGE FUNCTIONS

Air-Jet

The Air-Jet outlets at the bottom of the bathtub eject air. Full body Air-Jet massage creates the holistic relaxation.

Whirlpool

The jet inside the bathtub ejecting water creates a whirlpool effect. The whirlpool effects massage the lower body and legs giving the total comfort.

Air-Jet + Whirlpool

The luxury combination of Air-Jet and Whirlpool maximizes your bathroom experience.

AUTO FAUCET SERIES

Micro Sensor

Integrated into the tip of the spout for accurate movement sensing

Power Generator

Water turns the power generator's turbine, creating an electrical current

Solenoid Valve

Activated by electricity from the power generator

SMA Thermostat

Maintains constant temperatures despite fluctuating water temperature and pressure levels.

Aerated Water

Reduces water consumption by 50%

SELF POWER

TOTO automatic faucets no longer need power from an electrical outlet. The energy from the flowing water is used to charge a battery that powers the faucet. The faucets require practically no maintenance.

AUTO FUNCTIONS

Cost Reduction & Energy Saving
Batteries don't need to be replaced which is better for the environment and reduces the need for maintenance.

Hygiene

The sensor-activated system means that users don't need to touch the faucets, reducing the risk of transmitting bacteria.

Smart Sensor

The automatic faucets feature an almost invisible sensor in the spout. It registers every hand movement precisely and is tamper-proof.

WATER SAVING

TOTO's aerated technology adds air to the water enlarging each droplet. This reduces water consumption by half from 4L to 2L per minute without any loss in stream volume.

UNIVERSAL DESIGN

The Universal (UD) concept reflects TOTO's commitment to developing products that are easy to use for everyone.

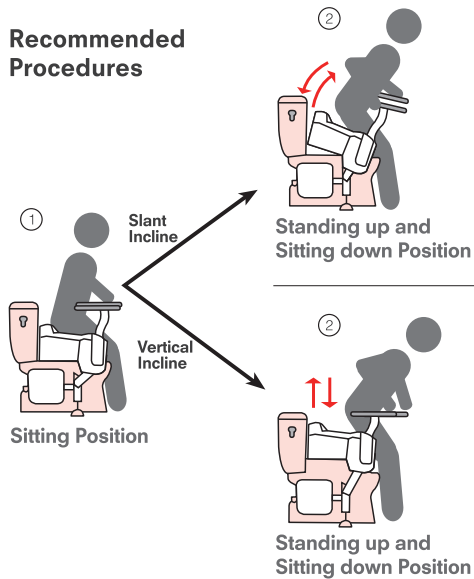

We design products that are safe and easy to use for people irrespective of differences in age, gender, physical condition, language, knowledge or experience.

POWERED ELEVATING TOILET SEAT LIFT

Instructions

Recommended Procedures

Slant Incline

Assist users to bend their legs slightly and able to stand up with slight push forward

- Able to incline with the correct speed and direction for the user while standing or sitting
- The operation angle of the toilet lift is 0° - 15°, able to stop within the range

Vertical Incline

Suitable for users who feel that the height is insufficient and have not enough strength to push forward and unable to bend their legs and want to stand up with a stable movement

- Able to incline vertically and stop within the range of 117mm.

HYDROCERA

Hydrotect is an environmental cleaning technology that harnesses the power of light and water to clean surfaces of dirt and grime. It can be used in numerous applications, from exterior walls and glass to interior walls and floors.

Thanks to its antimicrobial, anti-mold and anti-odour capabilities, Hydrotect also helps keep the air and the environment cleaner and healthier.

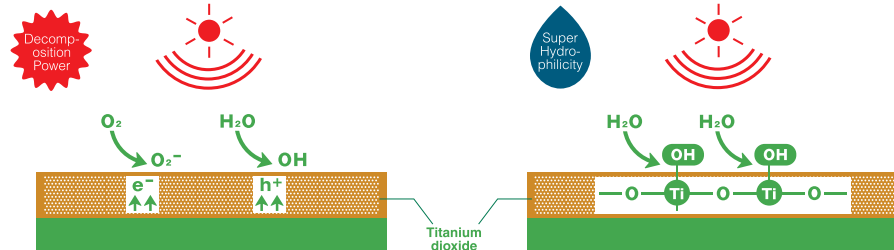

The results? Less time and money spent cleaning, cleaner air and environmentally responsible building practices. In short, a better world.

PROPERTIES OF HYDROTECT

Hydrotec is an environmental purification technology that cleanses our living environment by a photocatalytic reaction that harnesses the power of light and water.

Photocatalytic

Hydrotec produces a number of environmentally-beneficial effects through a process similar to photosynthesis in plants.

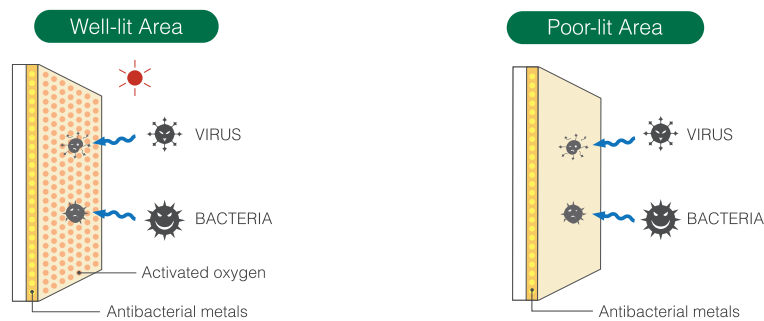

When exposed to light, titanium dioxide produces electrons (e^-) and holes (h^+). These react with oxygen and water (O_2 , H_2O) in the air to produce activated oxygen (O_2^- , OH). This oxygen decomposes organic substances on the surface of products.

When titanium dioxide (TiO_2) is exposed to light, the titanium (Ti) reacts with water (H_2O) in the air, producing a hydrophilic layer that easily washes away any dirt or grime.

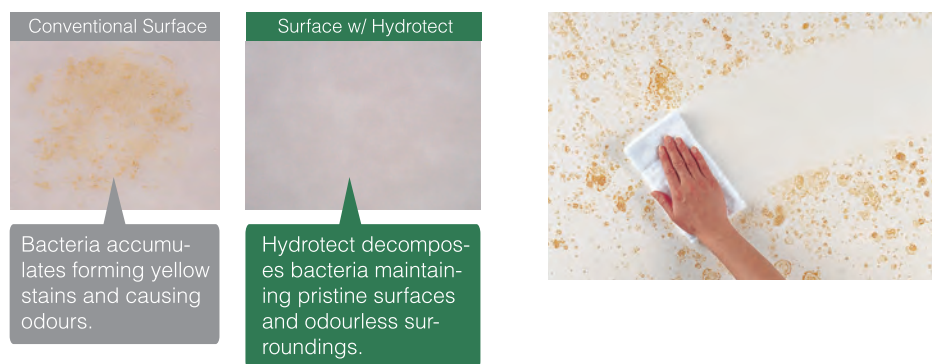

Antibacterial

Antibacterial metals make it possible for surfaces with Hydrotec to decompose bacteria in poor-lit areas as well as under the sun. This improves hygiene on walls and floors in indoor areas such as toilets, bathrooms and kitchens.

Anti-Odour

Through the decomposition of organic substances, surfaces remain free of stains that often emit foul odours.

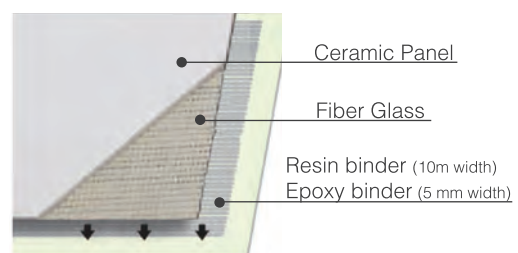

Highly Durable

HYDROCERA is fired under extremely high temperatures of $1200^{\circ}C$ making it exceptionally durable and long-lasting.

PROPERTIES OF HYDROCERA PU

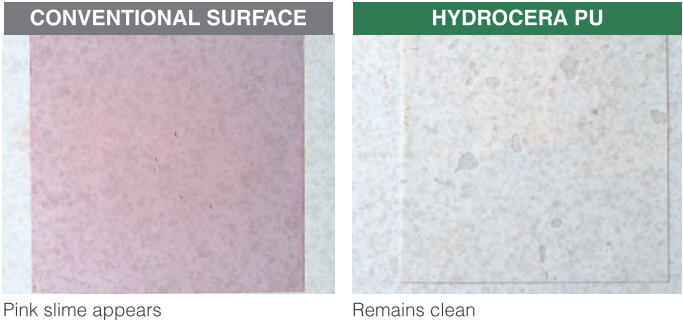

STAIN RESISTANT

Testing Method

- ① Coloured drops are applied onto the surface and left for one hour.
- ② The surface is wiped with a damp cloth.

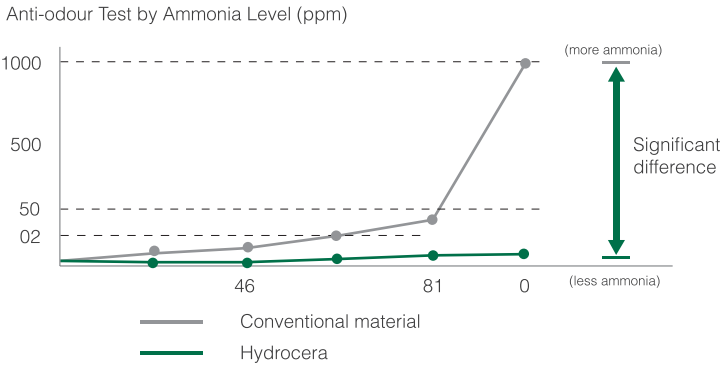

ANTIBACTERIAL

Testing Method

- ① Liquid droplets containing bacteria are applied onto the surface.
- ② The surface is placed in a humid bathroom for a two-week duration.

ANTI-ODOUR

Testing Method

- ① Urine is applied on the surfaces.
- ② The ammonia level is measured after two days.

TOTO GROUP CORPORATE PHILOSOPHY

The TOTO Group strives to create a great company, trusted by people all around the world, and contributing to the betterment of society.

To achieve our philosophy, TOTO will,

- 1. Create an enriched and more comfortable lifestyle and culture build on our plumbing products.**
- 2. Pursue customer satisfaction by exceeding expectations with our products and services.**
- 3. Provide high-quality products and services through ongoing research and development.**
- 4. Protect the global environment by conserving finite natural resources and energy.**
- 5. Create an employee friendly work environment that respects the individuality of each employee.**
